# Assignment 1

Assignment 1

Build an interactive information site about a club, band, society, shop, etc.. that is of interest to you.

Deadline: Monday 18th March 11pm

Assignment 1

- The project is to include the three pillars of web design:

  - Content

  - Presentation

  - Behaviour

Assignment 1

- The site is to utilise Semantic UI for the layout and <u>must include</u> the following pages:

  - A welcome (home) page.

  - An about page.

  - An image gallery, which includes a lightbox, or image replacement, or carousel, or some other plugin.

  - A form where elements are validated using h5validate and may (or may not) include a calculation.

Assignment 1

- Each page is to include some interactivity whether it is a button to click, an image to mouse over, todays date displayed, elements on the page faded in and/or out etc…

- The site must include a plugin *that has not been covered in class.*

- In the about page, you are to include a description of the plugin (files required and code needed to execute the plugin).

Assignment 1 Schedule

- Assignment 1 specification given out Week 6 (Feb 25).

- Assignment 1 due (March 18 11pm).
